

Southern New England Computer Services

601 Great Road, North Smithfield RI & 39 Greenville Ave, Johnston RI
The 1st Computer store to regularly advertise in the Bargain Buyer!! (Let the others follow!)

Come in today and see why so many people are switching to us!

Have you noticed all the new companies that have switched to us? Just when I think we have listed them all, a new one joins us. One of the main reasons is **stability!** We have been serving you for over 10 years and we have done nothing but grow every year. We have never had a year slower than the year before and we attribute our growth to the dedication of all our new clients. Yes, you see all the new companies that we list but what you do not see is the hundreds of new residential customers that we get in as well!

Stability

When deciding who your computer support and service is going to come from consider this: Big box stores sell you a computer and then all your support is overseas! Cable companies and big box store home services are techs you will never see again and their training can be sketchy at best. The “on the side” guy will get to you if their other jobs do not interfere with it. If you go to a place that mainly sells office supplies to fix your computer then you deserve what you get. **(We work on computers full time!)**
