## **Unlike box stores, you can make the choice with us!**

*Let our knowledgeable staff show you the latest and greatest things about this new operating system. Unlike box stores, we can make the transition a smooth one. We are actual technicians, not sales people in a tech shirt. For instance, the Windows' start button does not exist in Windows 8. We can put it back for you (I'd like to see an easy geek do that)! What if you want to stick with Windows 7 or XP? We have brand new and used systems in stock for what you need. Want to upgrade **your Windows 7 system** you bought last year to Windows 8? We can handle that for you also. Come in today and see why we have been serving this community for over 10 years! Your local tech solution!*
